Every two years the **ManKind Project USA** calls the **Elders to Gather** for a powerful weekend for connection, fun, growth, teaching and mentoring. Programming varies widely and can be related to living life more fully, aging with grace, better health, experiential workshops and more.

October 18-21, 2018 there will be a gathering of **women and men**, Elders, near **Orlando, Florida** in a lush and beautiful natural place, **Wekiwa Springs State Park**. There will be many Elders from the Mankind Project but also from Native American tribes, from Elderhood programs of all kinds, from other personal growth and transformation groups, and simply men and women coming to connect, open their hearts, expand their minds, and feed their spirits.

If you would like to attend please visit **Elders.MKP.org** to register (**just \$295**) and learn more.
